1. Deposited in CIA Library are three catalogues of industry as follows:
  - a. East China Industrial Bureau, Catalogue of Sample Products (5478/2639/1562/2814/6752/3934/0756/2876/2609)
  - b. Northeast Industrial Bureau, Fushun Mining Administration (2639/0554/1562/2814/6752/2329/7311/4349/0523/1444)
  - c. Catalogue of Machines, Machine Parts, and Electrical Products (2894/2750/7193/0892/3934/0756/2876/2609)
2. The Catalogue of Sample Products is a survey on industrial production of China, broken down by plants, and probably aims at propagandizing the development of Chinese industry under the Communists. Products may be produced under license or are reproductions of British or American models as is apparent from the English inscriptions of many electrical installations. Description of the installations of the newly established chemical industry is noteworthy. The diagram on page 286 showing the production of sulphuric acid and giving descriptions of other chemical processes supply no information beyond generally known facts.
3. The description of an electrolysis factory on page 277 indicates the propagandistic tendency of the catalogue. It is stated there that the factory is now producing ammunition for the "battle of resistance" and will not resume its previous production until "the victorious end of the war".
4. The catalogue contains data on dimensions, types, composition, etc., of many products. In this connection a survey of the products of the I Min Industrial Company on page 310 is a list principally of food products; such as, powdered eggs in cans, powdered milk, ice cream powder, aerated water, dry bread for military use, smoked meat, etc., with notes concerning the water, fat, acid content etc.

5. The erasures on pages 255, 256, 257, 258, 259, 277 and 278 refer to production and dimension figures chiefly of the chemical industry.
6. The table of contents of the catalogue consists of a list of production plants with a list of products. The plants indicated on Page 1 to 304 have no specific addresses. On each of these pages in the right bottom corner is the following note: Office for the Placement of Orders - Administration of the Chinese Ministry of Industry - Shanghai, Telephone Number 12277.
7. The plants on Page 305 to 322 are listed with specific addresses. On Page 323 to 391 is the following notation: Placement of Orders - Shantung Administration of the Chinese Ministry of Industry - Tsinan Municipal Administration.
8. The following is a list of the production plants:
